MEMORANDUM FOR: Director of Finance

Bob:

The briefings I have been getting from people in your office have been very satisfactory.

The [REDACTED] system has been mentioned two or three times, but it hasn't been completely covered. Rather than wait until the Policy and Systems Staff comes up on the schedule in June, I would appreciate your arranging to have somebody get on my calendar to give me a complete rundown on the [REDACTED] operation some time in the next week or two. I would like to know how many of these installations we have, where they are, why they are there, what stations they serve, how many people are involved, and the whole story.

Signed

L. K. White  
Deputy Director  
for Support
